

# **BHARATI VIDYAPEETH DEEMED UNIVERSITY**

## **College of Engineering**

Department of Civil Engineering

### **Innovations in the Department:**

- Edhitch software for giving online assignments to students, keeping the records of assignments, conducting online discussions with students.
- Virtual Laboratory: BVDUCOE is a nodal centre for virtual learning environment. Using the virtual labs of IIT, the students are trained to perform experiments on various courses from the curriculum
- Students are allowed to interact with experts from industry and entrepreneurs through a new initiative 'Saturday @ BV'. Eminent personalities from industry are invited to interact with students and share their experiences with the students on Saturday.
- Employment Enhancement Programme for students was implemented.
- Conduction of Program 'Engagement of people with Science and Technology.'- This is a new initiative in which students disseminate some technical concept to the school children by giving presentations, making models on various topics of engineering.
